

The Villages® Charter School

Re: Kindergarten at VCS for the 2021-2022 School Year

Dear Parent,

Open Enrollment for the upcoming 2021-2022 school year begins Monday, March 1, 2021. If it is your desire for your current Pre-K 4 student to attend Kindergarten at The Villages Charter School, you must apply for new enrollment.

After the current 2021-2022 school year ends, we will begin the process of verifying all parents' employment. When your employment has been verified and we anticipate that we have space available for your category and level of employment, we will notify you by phone.

Typically, this occurs in the last 2 weeks of June. Placement is based on the parent's category of employment and priority is given to full-time employment (40 or more hours) versus part-time employment (under 40 hours). Priority is also given to students who have siblings already enrolled in the Villages Charter School.

Pre-Enrollment Eligibility applications are now available on our website www.tvcs.org / Enrollment Tab / Apply Now.

It is very important that you apply; otherwise, your child will not be considered for enrollment into Kindergarten at the Villages Charter School.

We appreciate your cooperation and patience during the application and admission process. With the many families who are anxious to attend VCS, our hope is to make the enrollment process as smooth and easy as possible. I welcome your emailst Tara.Milow@tvcs.org or phone calls (352) 259-6848 should you have any questions regarding enrollment for the new 2021-2022 school year.

Sincerely,

Tara Milow
